Software Engineer

## TECHNICAL PROFICIENCIES

Typescript | Javascript | Java | React | Azure | Node js | Compose | Mock GCP | MongoDB | GCP | Jasmine | CI/CD | Jenkins | Sonarcube | Angular | Bootstrap | React | Tailwind | Vue | Git | Github | Redis | Docker | SQL | Prompt Engineering | AWS | Azure | Python | ChatGPT | Gemini | Grok | Claude | Hugging Face | Kaggle | LangChain | OpenAPI | Back-end Development | APIs | Debugging & Troubleshooting | SQL Management | Cybersecurity | Express.js | Django |

## PROFESSIONAL EXPERIENCE

### Wells Fargo | Software Engineer (Engineering Associate)

01/2023 – 02/2025

Modernized legacy code using Angular 16, Angular Material, Typescript and C#. Implemented new application features, promptly delivered code using Scrum/Agile Methodologies, fix or find bugs and defects. Mentored incoming interns and/or new Engineer Associates in the team with code peer reviews, code along or as needed.

- Attended Angular 16, Microsoft Azure training. Studied Micro-Frontends to implement various other teams into our Compliance Hub application.
- Researched and implemented Micro-Frontends and Microservices design patterns to support cross-team integrations
- Built and optimized RESTful web services using .NET and C# to improve application performance and scalability
- Developed, architected, refactored and maintained single-page applications (SPAs) using Angular 16, Typescript and Angular Material
- Obtained Azure 900 certifications to implement serverless cloud solutions
- Participated in code reviews, peer programming, mentorship and Agile Scrum ceremonies to ensure quality and knowledge sharing
- Planned, gathered needed data to develop controllers/action methods/models using third party financial APIs, such as FINRA.

### Addoof International | Manager, Operations (e-Commerce)

08/2019 – 01/2020

Managed multiple international warehouse inventory, product listings, calculated sell-through rate and expected sales for each quarter. Articulated strategies to broaden brand appeal & consumer reach (Pictures, Graphics) in Amazon, eBay & Shopify. Translated over 2K product listings to Spanish in various eCommerce selling platforms (eBay, Amazon, Shopify).

### Dekataga Group | e-Commerce Manager – Business Administration

11/2018 – 08/2019

Maintained local B2B relationships, upsold new products, maintained daily tasks.

- Created an eCommerce presence and marketing plan for a Spanish product market.
- Grew yearly revenue 15% by optimizing product listings to compete with competitors.

## EDUCATION & CREDENTIALS

**Bachelor of Science (B.S.), Computer Science** – Western Governors University

**Software Engineering Certificate** – Per Scholas | **AI Prompt Engineering** – TekSystems (84 hours)

Microsoft Azure AZ-900

Mastering Angular 16 – Beacon Hill Technologies
